- Foam shapes: star, bucket
- Glitter pompom: baubles
- Gemstones: decorations
- Sequins & spangles: decorations

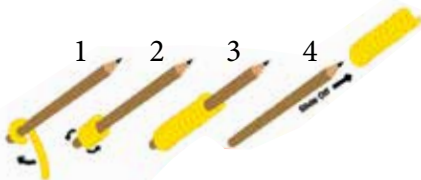

Spoon Characters

Angel Wing Join 2 silver pipe cleaners together and bend into a loop shape, twist the ends together to keep the wing shape.

Repeat to make the second wing. Stick or hook the ends onto the back of the angel.

Angel Halo twist the ends of 2 gold pipe cleaners together and make a circular shape at one end so it looks like a lollipop. Stick this to the back of the spoon head and bend the circle shape forward to make the halo.

Bodies (Snowman, Elf, Santa, Angel): Join 2 pipe cleaners together by twisting the ends together to make one long pipe cleaner. Wrap this pipe cleaner round the top of the spoon handle and glue in place.

Arms (Elf, Santa, Angel): Join 2 pipe cleaners together and wrap the pipe cleaner round a pencil to form a spiral shape (see diagrams). Either glue one arm each side of the body or use the end of the pipe cleaner arm to hook it onto the body.

Trousers, Hats, Hair, Beard and Wings
Cut the shape from sheets of foam.

Noses, Hooves, Shoes and Feet
Cut the shape from the foam shapes.

If you wish to colour the spoon it is best to use paint and leave to dry for at least half an hour before sticking on faces.
